URYING THE DEAD

th Wagons Rumble Through Streets of Boyertown, Pa.

EWSOME MORGUE SCENES

ra House Holocaust Has Claimed t Least One-Fifteenth of the Popuation of Boyertown—More Than Fify Bodies Will Never Be Indentified.

Boyertown, Pa., Jan 17.—This litborough, which lost one-fifteenth of population in the opera house horr Monday night, Thursday turned the task of burying its dead.

Because of the condition of the bodthe borough authorities hav eask the bereaved relatives to bury the d within three days. All night scores of men worked in the orgues preparing the identified dies for removal to their late homes to the cemetery. As early as 5 lock a long line of death wagons oved here and there about the litown distributing the corpses and fore nightfall most of the dead were dy for interment.

Three Claimants for One Body.

There was a slight hitch in the rk of removing bodies from the orgues through the action of Corer Strasser forbidding the removal any bodies during his absence.

This was due to a mix-up in the ntification of the body of a boy. ere were three claimants for the dy and all appeared before the cor- er for permission to remove it. ch one was positive that the body as the one they were looking for. herefore, to prevent mistakes, the roner issued the order.

Charred Bodies Carried on Boards.

Burgess Koehler learned of this and mediately communicated with the roner at Reading, where he had ne on business connected with his fice. When it was explained that ople who had positively identified eir dead wanted the bodies and that odies in dispute would be held, the roner rescinded his order. Since en the relief committee working in onjunction with relatives has removd more than fifty bodies from the orgues. It was a common sight to e men carrying through the streets harred bodies on boards covered by blanket or quilt.

A force of men started to dig graves Fairview and Union cemeteries and ey were relieved at intervals.

Lots for Unidentified Dead.

The borough has decided to buy ght lots for the burial of the unentified dead. In the center of the lot sufficient space will be left for e erection of a monument.

The scenes about the morgues on hursday were much the same as on revious days. Daylight found crowds round the entrances clamoring for admittance. At 7 o'clock the doors were opened and the gruesome work of identifying the dead was again taken up. It is believed that more than fifty bodies will never be identified.

Bars Opium From Philippines.

Washington, Jan. 17.—Within a little over a month's time the law prohibiting the importation of opium into the Philippines will become effective and in anticipation of that important event, there is much speculation among the Filipinos regarding the probable effect of the law. A large quantity of opium is consumed in the islands, mainly by the large Chinese element, but the baneful effect of opium smoking has been rapidly extending among the native Filipinos and even among the Americans. Congress has passed an act intended to correct the evil.

FATE'S STRANGE DECREES.

Blind Helen Keller's Instructress Is Also Losing Her Sight.

New York, Jan. 17.—News comes here from Wrentham, Mass., that Mrs. John Albert Macy, who was Miss Anne Mansfield Sullivan, for twenty years the companion of Helen Keller, is going blind.

Mrs. Macy is afflicted with cataract, and it is feared she will entirely lose her eyesight.

It is to Mrs. Macy that Helen Keller owes her education, and the fact that she is today a living example of the fact that love and patience can overcome the worst of afflictions.

Until Helen Keller was seven years old, she sat in darkness and silence, being deaf, dumb and blind. Then Miss Sullivan, as she was then, mastered the means of communication with the girl and by the touch language which she invented, began her education.

The story of Miss Keller and her achievements is known to every one, and it is to the woman whose friends now believe is fast losing her sight that she owes it all. For twenty years the two have been constant companions and it was through his interest in Miss Keller when she entered Radcliffe college that Professor Macy, at the time an instructor in Harvard, became acquainted with Miss Sullivan. Professor Macy and Miss Sullivan were married in May, 1905, and since then have made their home with Miss Keller at Wrentham. Professor Macy is now one of the editors of the Youth's Companion, and wrote the introduction to Miss Keller's book, "The Story of Life."

DRUGGED AT THEATER.

Young Girl Supposed to Have Cleverly Robbed Woman of Valuables.

New York Jan. 17.—Mrs. Robert Fox, according to a story told the police, was drugged and robbed while attending a matinee last Saturday.

Wednesday night the police arrested a young woman who gave her name as Alice Moran, who has been charged by Mrs. Fox with the theft. Mrs. Fox states that she sat in a theater and got into conversation with a young girl who was in the same box. The girl admired a bracelet which Mrs. Fox wore and she took it off and allowed the girl to examine it. The girl offered Mrs. Fox some candy and, after eating it, she became seriously ill and was assisted from the box by the girl. Mr. Fox was telephoned for and went to the theater and took his wife home. In the meantime the girl disappeared. When Mrs. Fox recovered sufficiently to leave the theater she found that a bag containing $70 and jewelry worth $250 were missing, besides the bracelet.

The physician who attended Mrs. Fox said she had, without doubt, been drugged.

NEWSPAPER PLANT BURNED.

Washington, Jan. 17.—"John Paul Jones' Commemoration" is the title of a congressional publication, now ready for distribution, commemorative of our first great sea fighter. The volume is "eulogy" size, about 7½x11 inches, printed in dull dark green ink and superbly illustrated. The frontispiece is a file and full face halftone of the plaster bust of Jones by Houdon. It is an important addition to American history. An edition of 10,000 will be issued.

Chicago, Jan. 17.—Frank Sullivan, swimming director of the Illinois Athletic club, has established a new professional record for remaining under water, staying in the bottom of the tank for three minutes. The former mark of 2:20 was held by Finney, an English swimmer, and was made several years ago at Philadelphia.

TRIAL OF HARRY THAW

Defense Piling Up Evidence to Show Mental Unsoundness.

WITNESSES FROM EUROPE

All Classes of People Who Knew Harry Thaw Subpoenaed by Defense to Add Their Testimony to that of Persons Who Witnessed Shooting.

New York, Jan. 17.—With some of the same testimony that was introduced at the first trial, and with numerous witnesses who are appearing for the first time, the defense in the trial of Harry K. Thaw for the killing of Stanford White continues to pile up evidence intended to show that the young defendant was not mentally sound until he fired the shots which caused the death of the architect.

To fill in the time until the appearance of witnesses who are on their way from Europe, Mr. Littleton, Harry Thaw's chief counsel, is putting on the stand witnesses who detail, in some cases facts that in themselves seem of little importance, but which the lawyers believe will, in the aggregate, confirm the stories of the more important witnesses.

Thursday morning August Weber, who was a butler in the house occupied by the Thaws in 1903 in New York, resumed the stand to finish the story which he began Wednesday. The incidents in Thaw's life at the time were recalled by the butler, incidents of his nervousness, his forgetfulness and his seeming irresponsibility, are counted on by the defense to show that for a long time preceding the night of the actual shooting of White, Thaw was mentally irresponsible.

It is evidently the object of the defense as planned by Mr. Littleton to bring before the jury every person who knew Thaw throughout the years before the tragedy of the Madison Square Garden who is able to detail any incident which ever came under their observation. House servants and club servants; teachers and medical attendants, in fact, all classes of people who knew or saw Thaw have been subpoenaed by the defense to add their testimony to that of the men and women who were witnesses to the shooting in the effort to show that Thaw was irrational at the time, and mentally irresponsible for any act.

FERTILIZER TRADE IS DULL.

Falling Off of About 15 Per Cent Compared with Last Year.

Atlanta, Jan. 17—Trade in fertilizers this year indicates a falling off of about 15 to 25 per cent as compared with last year, according to information received at the state department of agriculture.

Representatives of fertilizer manufacturers who have called at the department of agriculture state that the trade was never duller than now, and there is no hope in the outlook.

The falling off in the demand for fertilizers is attributed to the scarcity of money, and also to the fact that vigorous movements have been organized by the Farmers' Union and others looking to a curtailment of the cotton acreage during the coming year.

No Reduction in Sparklers.

New York, Jan. 17.—There is to be no reduction in the price of diamonds, according to an announcement made by one of the big diamond importers. It is stated that all importers have received word from the diamond syndicate in London, which controls 95 per cent of the diamond output of the world, that the policy of maintaining prices will be strictly adhered to in spite of the great falling off in sales within the past few months.

Washington, D. C., Jan. 17—Senator Gore has introduced a bill providing that the interstate character of a shipment of liquor shall cease upon its arrival at the place within a state where consigned, and making the shipment subject to local laws from that time on.

FIVE FIND WATERY GRAVES.

Ice Breaks Under Party of Merry Skaters at Connellsville, Pa.

Connellsville, Pa., Jan. 17.—Of the six persons who formed a skating party at the Jimtown reservoir, near here Wednesday night, five were drowned. They are John Luxner George Cochran, William Fulmer and Elizabeth Fulmer.

Miss Fulmer and George Cochran started towards the center of the reservoir, but had not gone far when the ice broke and they were thrown into the water. As the other members of the party gazed, horrified, at the spot, two heads reappeared above the surface. Cochran, supporting the girl with one hand, was clinging to the broken edges of the ice with the other, in an instant a human chain was formed by the other four, who clasped hands with Andrew Mack, the only survivor, at the end of the line nearest the shore.

Just as a hand was being reached out to grasp Miss Fulmer, there was another crash of ice. Frank Cochran and Luxner and William Fulmer had also gone down, the thin ice giving way under their combined weight. Mack was obliged to dash to shore. Helpless to save, he saw his merry companions of a few minutes before go to death. He heard a scream and a choking sound, saw uplifted hands above water for several seconds, and then all was still.

At a late hour none of the bodies had been recovered.

BILL NOT NECESSARY.

Col. Kingman Says the $400,000 Necessarily Reverts to Savannah.

Savannah, Ga., Jan. 17—Lieutenant Colonel Dan C. Kingman, in charge of river and harbor work of this district, is quoted as saying that he thinks the bill introduced by Congressman Edwards to have the United States restore the $400,000 or such other sum as may be recovered, appropriated for harbor improvements in the Savannah district and embezzled by Captain O. M. Carter, is not necessary.

Colonel Kingman says money once appropriated for a specific work by the government is to be used for that work until congress repeals the law and diverts the funds into another channel. When Chicago courts held a few days ago that the $400,000 embezzled from the government in connection with the work here should revert to the government, it was understood as a matter of course, thinks Colonel Kingman, that the money would be given back to the fund used in harbor improvements in the Savannah district.

San Francisco, Cal., Jan. 17.—The final cruise of the California, on which the new warship was to have sailed Wednesday, was postponed owing to a desire to have certain repairs made on the engines. The date for the trial will now be set by an order from the secretary of the navy. The first trial of the new cruiser took place in June last, when she acquitted herself with credit, making more than 22 knots over a measured course.

IN A PITCHED BATTLE

Two Men Killed and a Policeman Wounded at Gary, Ind.

A FIGHT WITH HUNGARIANS

For Several Hours Policemen Stood Their Ground in Fierce Battle Until Reinforcements Arrived—Were Outnumbered Ten to One.

Chicago, Jan. 17.—Two men were killed, one policeman was wounded and several working men were injured in a pitched battle Wednesday night between three policemen and thirty Hungarian laborers at Gary, Ind.

Guns and revolvers were fired and knives thrown, but, though they were outnumbered ten to one, the policemen made seven arrests and stood their ground until reinforcements arrived, when thirteen more of the men were captured.

Several escaped through the sand dunes. The fight occurred at the camp of the Hungarians, one mile west of Gary, and the battle was of several hours' duration.

The Hungarians had been working on the tracks of the South Bend railroad. Several of their number destroyed the tent of a negro laborer and when the latter sought redress at the camp, he was fired upon.

A railroad watchman who sought to aid the negro also was compelled to flee.

Warrants then were sworn out, and the policemen went to the scene.

A shot greeted their demand for surrender and the battle followed.

WORK OF "BLACK HAND."

Attempt Made to Blow Up Family of Italian in New York.

New York, Jan. 17.—An explosion which the police lay to the "Black Hand" occurred at an early hour on Thursday morning in a tenement house in East Twenty-ninth street, shattering the front of the building, breaking windows in nearby buildings and almost causing a panic in the wards of Bellevue hospital, which are located on that side of the hospital towards the buildings where the explosion occurred.

The explosion seems to have been directed towahd the family of Pietro Onarato, a coal dealer, who with his wife and three children live in the building. Onarato states that, December 15th, he received a letter signed "Black Hand" in which he was directed to place $1,000 on the grave of a certain Italian in a Brooklyn cemetery within a month on penalty of being killed with all his family.

No one was seriously injured in the building.

In 1870 Colonel Womack was graduated from Emory college with honors. In 1880 he was elected solicitor general of the Flint, now Stone Mountain circuit. He was succeeded by Judge Marcus W. Beck, of Griffin, Ga.

Address the Farmers' Institute in This City in February.

MAN OF HIGH INTEGRITY

Been Veterinarian of Alabama Polytechnic Institute for Nearly Twenty Years, Also Superintendent of Farmers' Institutes in Alabama.

Dr. C. A. Cary has been veterinarian of the Alabama Polytechnic Institute for nearly twenty years. In addition to his work as veterinarian, he has been superintendent of Farmers' Institutes. This work in Alabama had its beginning in very small proportions, but now it has grown so large as to take nearly all of Dr. Cary's time, together with institute speakers from other parts of the Southern States. Even the State of Florida has been called on from time to time to contribute speakers for their institute work.

At the Farmers' Institute, which will be held at Gainesville on February 5, 6 and 7, Dr. Cary will deliver lectures on the good and bad points in beef cattle. To illustrate his lectures he will use on the first day live cattle of the Hereford breed, which will be furnished by Mr. N. A. Callison, and one of a native steer, to be obtained from a local source. On the second day Dr. Cary will deliver a lecture exhibiting these same cattle after they have been slaughtered, showing how they should be cut up, and showing how the good cuts in the improved breed are proportionally much larger than in the unimproved breeds.

Dr. Cary's lectures to farmers' institutes have gained for him an interstate reputation. He is a graduate of the largest and best agricultural college in the United States.

Mrs. McKinstry's Lectures.

Rev. Mrs. McKinstry, who has been lecturing at the Advent Christian church for the past week on "The World's Greatest Empires," has continued to attract good audiences. She is a fine and impressive speaker, handling her subjects with deep interest.

W. L. Davis, the trucker of Rocky Point, was among those who came to Gainesville on business yesterday. Mr. Davis states that the lettuce shipments are about all in now. The last returns for lettuce shipped from his farm was $1.75 per basket.

Attention is called to the change of advertisement of The Dutton Bank, which appears in this issue. This old and reliable financial institution is growing in solidity and popularity every day, caused by the conservative manner in which its business affairs are conducted.

The musicale at the opera house last night under the auspices of Kirby Smith Chapter, U. D. C., was a grand success in every particular. Every seat in the house was occupied, and many persons had to stand. It was the largest audience of the season. Further particulars will be given tomorrow.

The American Coffee Company, Ltd., of New Orleans, has an advertisement in this issue which will prove of interest to our readers, since the advertisement carries a coupon good for ten cents towards the purchase of a pound of the famous French Opera coffee, retailing at 25 cents. This offer is only good until March 1, and it would pay readers to take advantage of the opportunity to try this excellent coffee at a reduced price.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

Colonel J. Ham. Lewis has hastened to deny that he said: "All women witnesses are perjurers." Think of the poor fellow's fate if his denial fails to carry conviction!

The California court of appeals says grafting is not a crime in that State. Judge Dunne, who sent Mayor Smitz to the pen for grafting, says, however, that the judges who reversed his decision are all kinsmen of men who are under indictment on the same charge.

The president of Smith College says that too much education spoils the girls as wives, and at the same moment Vardaman says that education is ruining the negroes. Someone should stop Rockefeller, Carnegie and "the bunch" before the country goes to the bow-wows.

Parties writing items for publication in The Sun must sign their name, in order that the editor may know who he is indebted to for the contribution. If you are ashamed of your name or contribution, do us the kindness to send your production to some other paper. We do not desire it.

There is now on exhibition at the land office of the Flogida East Coast railway a couple of stalks of the Sea Island cotton raised at Elkton last summer. These stalks are nine feet tall and the branches spread out over five feet. The staple is of an excellent quality.—St. Augustine Record.

The Ocala Star and Banner breathe the spirit of peace with each other and with the whole world. We have of late noted in both of them a degree of benevolence that borders on the sanctimonious, and for this most commendable change of heart we must, without doubt, thank Mr. Culpepper, whose great revival services are attracting such general attention.—Tampa Tribune.

Wauchula has long been noted for its beans, but last Sunday was the first time we ever saw bean vines thirty-five feet high. Generally Wauchula's choicest products in the bean line come from burch or bush beans, but the beans we saw Sunday were climbers of the good old butter-bean variety. The vines were a year old and had climbed a tree. The vine was still bearing and had both beans and bloom on it.—Wauchula Advocate.

The Land Department of the Florida East Coast, which has been doing some excellent work in locating settlers, is now arranging for the movement of fifteen families from Aiken, S. C., Langley, S. C., and Augusta, Ga., to near Mims, Florida, where they will engage in orange growing and truck gardening on the co-operative plan. The party will consist of business men and mechanics, who will make an inspection tour next week.—St. Augustine Record.

THE "SEA-GOING RAILROAD."

January 16 witnessed the culmination of an important stage in the great project being worked out by Henry M. Flagler when the new railroad from Miami to Knight's Key was opened. This line is the longest part of the ambitious extension of the Florida East Coast railway, by which the road's terminus will be moved from Homestead, Fla., to Key West, 128 miles further South. On January 16 the Miami, Key West and Havana steamer service was discontinued, and passengers for Cuba are now carried to Knight's Key before embarking. This key is within forty-six miles of Key West, the ultimate goal of this unique railroad.

Referring to this great work The Wall Street Journal says that construction work on the extension was begun on May 1, 1905, and the frequent engineering problems met with each step of its progress have been successfully solved. Stretching its way from key to key over intervening lanes of water varying in depth from a few inches to 30 feet, the new line when completed will have been built for 74 miles on land, 25 miles through swamps and 23 miles over water. It has been appropriately nicknamed the "seagoing railroad." On the entire route 50 keys are crossed, and the delay accompanied the procuring of material for the connecting concrete viaducts has prevented earlier completion of the new section.

Included in the 156 miles from Miami are nearly six miles of concrete viaducts and 80 miles of embankment, rising 31 feet above the water to protect the track from storms. The line has ten bridges, two of them drawbridges with 40-foot clear openings on each side of the pier, and one with a clear opening of 100 feet on each side. The longest viaduct from Long Key to Conch Key is 10,500 feet, built in the most substantial way. In places concrete work on the railway has cost more than $500,000 per mile. The road is, of course, single track, with 70-pound rails, and is an excellent piece of construction work. For the extensive grading necessary 4,000 men were employed last winter.

The completion of the road is expected to make a wonderful change in the development of Key West. With railroad facilities this city should take a position as a port entry on a par with Galveston, Mobile and New Orleans. Kew West will obviously be the port of Cuban traffic, being but a little more than four hours distant from Havana, and will be the nearest rail connection for Hayti, San Domingo and the Panama Canal. From the opening of the canal a large amount of profitable business is expected to originate, while the winter tourist traffic is a sure source of considerable passenger revenue. Prosperity and real estate in Key West have advanced by leaps since the coming of the railroad was made certain. The city's harbor is expected to provide wharfage space for 40 deep sea vessels, with wharves 800 feet long. This harbor has been filled in for an acreage of 800 by 1,500 feet by pumping mud from the bay, and upon this newly-made land will be built the terminal. There will also be erected here another Flagler hotel.

Completion of the last sectoin of 46 miles to Key West will be pushed, but will not be accomplished for many months.

"PISTOL-TOTERS" IN GEORGIA.

Now that the Empire State of the South has banished whiskey from its borders the authorities are turning their attention to the great evil of carrying concealed weapons, especially the pistol-toter.

Referring to this practice The Atlanta Constitution says:

"With courage and pith Judge Wright, of the Rome circuit, has struck one of the greatest evils in Georgia and the South squarely between the eyes. To the Rome grand jury he charged:

"'The pistol-toter is a far greater menace to the community than the blind tiger.

"'The conviction of one pistol-toter in this community would do far more good than the conviction of men selling liquor.

"'A man never knows when he is going to be shot down like a dog by some fellow carrying an arsenal in his hip-pocket.

"'That is the truth of it; let us indict them and let us apply the law to them as vigorously as we know how.'

"Judge Wright has, with perfect accuracy, said the first and last words with regard to a practice which the authorities of this State are impelled by their oaths and the public safety to stamp out relentlessly.

"The pistol-toter we have always with us. Whiskey merely complicated the problem. From an official standpoint, it has disappeared—and he still remains, ever ready to arbitrate some petty quarrel with the deadly six-shooter.

"There is no evading the issue. Every man who carries a pistol without the sanction of law is a potential murderer. He may not leave his home with murder in his heart. But it needs only the slightest provocation to stir the blind blood-lust in his veins and, reckless for the moment of consequences, to resort to the means of death so easily at hand.

"When we drive out whiskey and ignore as negligible its deadly accessory, we are dangerously near making a farce of the enforcement of law in Georgia.

"When we impose drastic penalties on druggists for selling fatal drugs, and complacently tolerate a habit that reaps ten lives where posions reap one—we are guilty of almost criminal inconsistency.

"Make the pistol-toter an extinct species in Georgia. He has no place in modern civilization!"

The little town of Westville was visited a few nights ago by a very disastrous fire. One drug store, the postoffice, livery stable and a dwelling were destroyed. Origin of fire unknown.

The prisoners confined in the county jail in Orlando tried to gain their liberty by burrowing underneath the walls. A weak spot was found and quite a quantity of sand had been dug before they were discovered.

While engaged in painting the hull of the British steamer August Belmont, which was loading cotton from its dock in Pensacola, Victor Fernandez, a seaman, was struck by a falling bale of cotton and knocked into the bay and drowned.

W. H. Brown came in this week from the Everglades with 225 otter hides, which he sold to Mr. R. A. Henderson. This makes 356 otter hides he has sold in the last few days, which have brought about $2,500 on the local market.—Fort Myers Breeze.

The first strawberries were shipped from Lakeland last week, though from the nearby stations of Galloway and Griffin shipments in considerable quantities have been regularly going forward for several weeks. The outlook for the growers is unsually good. There is a splendid crop, a larger acreage than usual and the fruit is fine.—Lakeland News.

Several weeks ago the Jacksonville Board of Trade appointed a committee to investigate and see if it could be arranged so that a large cotton warehouse would be located in Jacksonville and that city be made the shipping center for the Sea Island cotton of this section. The committee was very successful, for at a recent meeting the Sea Island Cotton Association in Valdosta adopted the recommendation of a special committee for the formation of a cotton warehouse and holding company with a capital of $250,000. Headquarters for the new company will be in Jacksonville.

ON THE DEATH OF RANDALL.

General Order Issued by Command of General Lee.

New Orleans, Jan. 17.—William E. Mickle, adjutant general and chief of staff of the United Confederate Veterans, has issued from the headquarters of the organization in this city the following general order by command of General Stephen D. Lee, general commanding:

"With profound sorrow, the general commanding announces the death of another distinguished son of the south. James Ryder Randall died suddenly at his home in Augusta, Ga., Tuesday afternoon.

"He was born in the city of Baltimore, Md., on Jan. 1, 1839, of English and French parentage. While denied the privilege of taking an active part in the war by ill health and feeble body, the best efforts of his cultivated mind were devoted to our cause, and the beautiful and melodious war song, 'Maryland, My Maryland,' will insure him a place in the affections of the generations yet unborn. Of a buoyant and hopeful disposition, with a heart full of love for all, a devoted member of his church, he has gone to his reward."

ROBBED ON PULLMAN CAR.

Woman Claims That Man Stole $6,000 Worth of Gems from Her.

Chicago, Jan. 17.—Acting upon a report made by Mrs. Rose Baranov, wife of a Dallas, Tex., jeweler, that she had been robbed on a Pullman car of $6,000 worth of jewels, the Chicago police searched through every pawn shop in the city in an effort to find the gems.

Mrs. Baranov told the police that while asleep in her berth in a Pennsylvania train entering the city, a man crept to her berth and deftly severed the string of a chamois skin bag fastened about her neck and escaped with the booty.

Mrs. Baranov declared that she saw a man, believed to have been the thief, leap from the train as it was running slowly through the railroad yards near the station.

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed *free* on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days *insist* on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Gonavies is one of the most thriving towns of the Haitian republic. It is situated on the bay or gulf of Gonavies, 66 miles northwest of Port-au-Prince. It has a good harbor. All the Gold IN GEORGIA Could not Buy-

Roding, Ga. August 27, 1906.

Messrs. E. C. DeWitt & Co., Chicago, Ills.

Gentlemen:—

In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything I ate, and in the Spring 1902 I picked up one of your Almanacs as a poor emaciated Dyspepsia wreck will grasp at anything, and that Almanac happened to be my life saver. I bought a fifty cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a machinist, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and a good tonic

May you live long and prosper.

Yours very truly,

C. N. CORNELL.

A Wedding Day Reminder.

William James, the famous psychologist of Harvard, said at a dinner in Boston:

"An odor often brings back memories that we had thought buried forever. As we regard some strange landscape it often seems to us that we have been just here before. The oddest, the most momentous associations oftentimes attach themselves to the most trifling things.

"Thus at a Thanksgiving dinner that I once attended the hostess said to a sour faced man on my left:

"'May I help you to some of the boiled rice, Mr. Smith?'

"'Rice? No, thank you—no rice for me,' Smith answered vehemently. 'It is associated with the worst mistake of my life.'"

TESTING METHODS

A test as to the value of newspaper advertising over other methods was made a year ago by the great publishing house of Harper & Bros. Two books were selected, one by a well known popular author and the other by an unknown writer. The latter was selected for the newspaper advertising and the other for the usual channels.

With equal expenditure the work advertised in the newspapers outstripped the other in sales by 200,000 copies.

The result was a complete surprise and established the fact that readers go to the newspapers for information with regard to books as well as with regard to most other matters.—National Printer Journalist.

The best advertising medium for any merchant to use is a paper which goes into the homes of the people, as this paper does.
